Toronto Myopia & Orthokeratology Workshop

What you will learn

- Myopia development and control research
- How Orthokeratology works
- Pre and Post fit orthokeratology procedures
- Pre and Post fit Topography analysis
- Live patient fit analysis
- Treatment optimization and troubleshooting

This workshop will provide a balance of research findings related to myopia development and intervention as well as the practical clinical knowledge required to optimize treatment. Experienced orthokeratologists will leave with an expanded understanding of the research and techniques while neophytes will be prepared to take a patient from beginning to end in treatment. **3.5 Hours of COPE CE – Approval Pending. 3 Hours of non CE – Procedures and optimization training**

Cost: **Register on or before January 12th:** \$300

Register after January 12th: \$400

Attendees receive first BE Free patient at no-charge (\$350-440 value)

To register follow this link: <http://www.ptsoptics.com/ceworkshop.aspx>
