Scleral Lens Webinar on

Best Fitting Techniques for

Happy Patients and a Healthy Practice.

Randy Kojima FAAO,
FBCLA, FSLS, FIAO

Learn why we prescribe scleral lenses, and how they can make a big difference to your patients' lives and to your practice. This webinar will review best fitting techniques and basic principles for problem-solving cases with challenging eye conditions. With a wide range of applications beyond keratoconus, the unique lens design of the ICD FLEXFIT allows simple fitting steps to achieve optimal vision for each patient.

Discover why so many practitioners are making ICD FLEXFIT their go-to scleral lens of choice. Make your patients happy and watch your practice grow.
